

INSTRUCTIONS FOR THE USE OF CLEANERS for users of biological cleaning system

For the proper operation of the biological cleaning system you should consider the following:

THE USE OF THE FOLLOWING CLEANERS IS PROHIBITED:

- Chlorine
- Detergents with a high bleach content
- Antibacterial detergents for washing machines and dishwashers (with antibacterial indication)
- Antibacterial cleaners (with antibacterial indication)
- Large amounts of bleach
- Chemicals (paints, solvents, nail manicure, etc.)
- Plastic (cotton buds, sanitary napkins, baby wipes)
- Cigarette butts
- Medicines and antibiotics
- Pipeline drainers (eg Tuboflo)
- Very acidic or basic cleaners (eg Vanish Oxy - Action, skip with active oxygen)
- Purifiers with anionic surfactants greater than 15%

SUITABLE CLEANERS:

- Cleaner brands Planet, Ecos, Green life, L 'arbre vert (carefour), Awalan (auro),
- Sonett, Green cycle
- Baking soda and vinegar to remove limescale
- All aromatic products for basins without disinfectant action
- All cleaners with anionic surfactants less than 15% in a reasonable amount

In general, we try not to put in the toilets substances that can kill the microbial population of the cesspool and biological cleaning system.

We are at your disposal for any further advice.
